ABOUT US

JLC Construction | Structural Strengthening

WHERE INNOVATION MEETS INTEGRITY

With a solid foundation built on years of expertise and a commitment to excellence, we specialise in providing structural strengthening solutions tailored to meet the unique needs of each project.

WHO WE ARE

At JLC Construction, we pride ourselves on being industry leaders in structural strengthening. Our dedicated team of engineers, project managers, and skilled technicians bring a wealth of knowledge and experience to every project, ensuring the highest standards of quality and safety.

OUR MISSION

Our mission is to reinforce and enhance the structural integrity of buildings and infrastructure, ensuring they can withstand the test of time and meet modern safety standards. We strive to deliver exceptional results that exceed our clients' expectations through innovative techniques, meticulous planning, and unwavering dedication.

OUR SERVICES

Our Structural Strengthening Division offers a comprehensive range of services designed to address various structural challenges, including:

Structural Steel Reinforcement

Using advanced techniques to reinforce steel structures, ensuring durability and stability under increased loads.

Seismic Retrofitting

Seismic retrofitting is essential for upgrading structures to better withstand seismic activity and ensure compliance with current safety standards. Within this process, various methods are employed, including the application of FRP (Fiber-Reinforced Polymer) strengthening. This approach involves reinforcing critical structural elements with strong, lightweight composites, which enhance durability and resistance to seismic forces. Other techniques may also be used in conjunction to address different vulnerabilities within the structure, ensuring a comprehensive approach to earthquake safety.

Re-Roofs

Providing complete re-roofing solutions to enhance the longevity and performance of your building's roof, in addition to our re-roofing services, we also provide detailed roof reports and customised maintenance plans to ensure the ongoing care and durability of your roof.

Commercial Fit-Outs

Delivering high-quality commercial fit-outs tailored to meet the specific needs of businesses, ensuring functionality and aesthetic appeal.

WHY CHOOSE US

Choosing JLC Construction means partnering with a team that is passionate about quality and dedicated to delivering outstanding results. We approach every project with a focus on innovation, leveraging the latest technologies and best practices to ensure optimal performance and durability.

Expertise

Our team consists of highly skilled professionals with extensive experience in structural strengthening and steel reinforcement.

Quality

We adhere to stringent quality control measures to ensure that every project meets the highest standards.

Safety

Safety is our top priority, and we implement rigorous safety protocols to protect our team and clients.

Customer Satisfaction

We are committed to building lasting relationships with our clients through transparent communication, reliability, and exceptional service.

Why Choose JLC Construction

The Strength Behind Your Success

Comprehensive Management

Let JLC handle the entire process from start to finish. From initial planning and design to execution and final delivery, we manage every detail to ensure a seamless experience. Our expert team oversees all phases of the project, ensuring high-quality results and timely completion.

Safety and Quality Control

We ensure the safety, well-being, and quality control of the project, protecting tenants and the public within the building through rigorous standards at every stage.

Efficient Collaboration

Benefit from our partnerships with highly reputable engineers, ensuring efficiency in design and execution.

Minimal Disruption

Enjoy a well-planned project designed to minimise disruption to tenants and occupiers.

Increased Attractiveness and Enhanced Valuations

Make your property more appealing to potential tenants while achieving better property valuations and higher sale prices.

EXPLORE THE JLC PROCESS

Initial Review

JLC assesses any historical engineering documentation related to the property.

Site Visit

We conduct a thorough site visit to gain a comprehensive understanding of the building.

Fee Proposal

A fee proposal is prepared for a three-stage design process.

Concept Drawings

Once stage one is approved, concept drawings are developed.

Cost Estimation

JLC provides a cost estimate for both strengthening and enabling works.

Budget Review

If the estimate aligns with the client's budget, we proceed with detailed drawings and offer a fixed price.

Council Submission

Following approval, the engineer submits a request to the council for an exemption from building consent.

Planning and Execution

The physical works are carefully planned and executed with precision.

Final Sign-Off and Handover

All necessary approvals are obtained and submitted to the council for final sign-off. The project is then officially handed over to the client, ensuring that all project deliverables and documentation are in order.

ENHANCING YOUR COMMERCIAL SPACE WITH JLC CONSTRUCTION

At JLC Construction, we specialise in transforming and optimising commercial interiors to enhance functionality while reflecting your brand identity. Our comprehensive fit-out services include everything from space planning and partitioning to lighting, electrical upgrades, flooring, ceilings, HVAC installations, custom joinery, and professional finishes—covering all aspects of your interior construction needs.

By choosing JLC Construction, you benefit from our unwavering commitment to quality, efficiency, and customer satisfaction. We ensure your workspace meets your business needs and leaves a lasting impression on both clients and employees.

Thank you for considering JLC Construction. We look forward to partnering with you to elevate and enhance your building.
